# Republic Day Celebration

# Social Studies Exhibition

To highlight the role of Social Science in today's society and to develop our students to visualize the future of the nation and create sensitive and responsible citizens, Horizon Academy, Sinnar organizes a Social Science Exhibition every year. It provides students the platform to showcase various projects and models prepared by them as a part of the project-based learning methodology.

# Science Day

The practical learning in Science should begin for children when they are young to pique their interest and create an environment of learning which is not just based on facts, but also on the implementation. Therefore, to create an opportunity of better understanding of scientific concepts for young children, Horizon Academy Sinnar organized Science Model Exhibition. The exhibition was planned out on the occasion of National Science Day. The students wonderfully depicted the beauty of the subject through different scientific experiments and showcased different scientific phenomenon. The students brought their book lessons to life through practical experience and demonstrated as well. Various concepts ranging from condensation to electricity generation through windmills were illustrated.

# Maharashtra day Celebration
